Chartered Financial Consultant® (ChFC®)

The Chartered Financial Consultant® (ChFC®) is the "Advanced Financial Planning" designation awarded by The American College of Financial Services. Charter holders are qualified to provide comprehensive advanced financial planning for individuals, professionals, and small business owners. Candidates must successfully complete a self-study course and examination program, have three years of relevant work experience and comply with a code of ethics. Continuing Education Requirements: 30 hours every two years.

Chartered Life Underwriter® (CLU®)

The Chartered Life Underwriter® (CLU®) credential is specifically designed to enhance the knowledge of people employed in the life insurance industry. Most, but not all, individuals who seek or have earned this designation are also licensed insurance agents or brokers. The CLU is conferred only upon successful completion of a ten-part course of study that covers fundamentals of economics, finance, taxation, investments, and other areas of risk management as they apply to life insurance. The course of study can be completed through home study or by attendance of courses offered by either a branch of the American Society of Chartered Life Underwriters or an affiliated college or university.

Enrollment in the CLU program requires that an individual have at least three years of professional experience in the insurance industry, preferably in life insurance. There are no degree requirements, although a high school diploma is strongly suggested. Three recommendations from clients and/or professional colleagues are also requested. The course of study consists of ten college-level courses, each lasting approximately 15 weeks. A three-hour examination taken at the conclusion of each course must be passed to successfully complete the program.
